## Project Profiles - Flooring

---

Guardian's Armour Terrafirma has been used to protect this multi usage floor in Amsterdam, The Netherlands. The existing vinyl floor did not need a primer and the low odour coating was suited to internal work.

---

## Project Profiles - Flooring

---

Guardian's Armour Terrafirma has also been used to protect this vinyl floor in Berlin, Germany.

---

## Project Profiles - Flooring

---

Guardian's Armour Terrafirma has also been applied to these tiles in the DFDS building in Copenhagen, Denmark.

---

## Project Profiles - Flooring

---

Guardian's Armour Terrafirma was used at the Cairns Casino in Australia to rejuvenate the concrete floor. An anti-slip additive is also recommended for wet areas.

---

## Project Profiles - Flooring

---

Guardian's Armour Terrafirma was applied to the vinyl floor of this kindergarten in the Netherlands. The fact that no primer was required and the low odour application were part of the specification for this floor.

---

## Project Profiles - Flooring

---

Guardian's Water Based coating is being applied direct onto floor surfaces of this Roteb train in the Netherlands without the need for a primer.
