
Project Profiles - Government Buildings

Guardian Graffiti Shield has been used to protect this historic building - Town Hall, Auckland, New Zealand - providing both graffiti and pollution protection. The coating is an impregnation coating with no significant change in the look of the surface. The coating is hydrophobic and will still allow the surface to breathe.

Project Profiles - Government Buildings

Guardian's Water Based coating has been used to protect Parliament House in Perth, Western Australia. An important consideration was the low odour benefits of the coating that was so important on building sites where other trades are working.

Project Profiles - Government Buildings

Guardian's Products have also been used to clean and protect the Law Courts in Portugal.

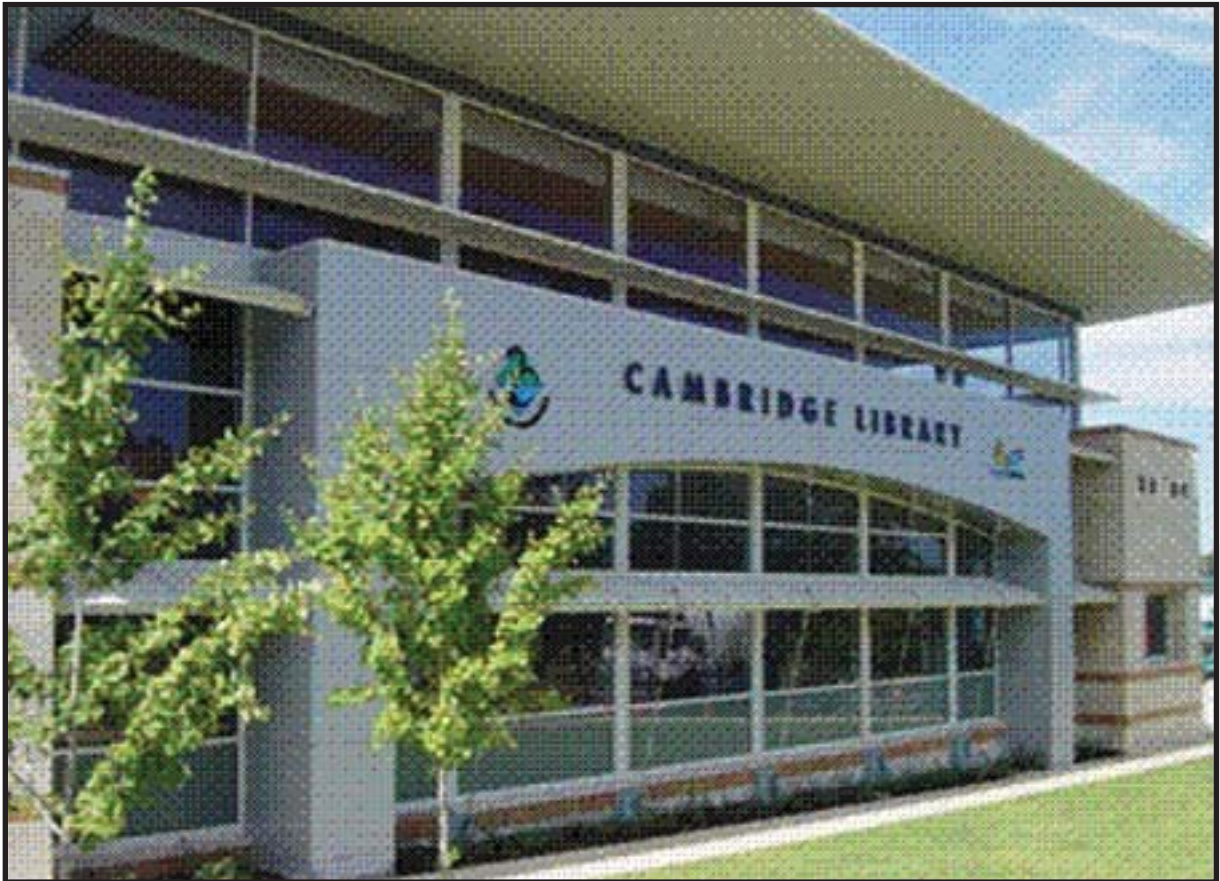

Project Profiles - Government Buildings

Sports Complex walls are constantly attacked by vandals. The walls of this sports building in Melbourne have been protected by Guardian to assist with maintaining the façade.

Project Profiles - Government Buildings

Government buildings in Western Australia are routinely specified to be protected by an Anti Graffiti coating. This Library building in Perth, Western Australia is protected by Guardian's coating.

Project Profiles - Government Buildings

Bassendean Council decide to protect their main office building with Guardian's coating.

Project Profiles - Government Buildings

This Police Building in Melbourne, Victoria, has been protected by Guardian to maintain the image as well as allowing graffiti to be removed with Guardian's Remover.
